The School Liaison Officer's primary function is to serve as a link between parents, educators and the Naval Base Ventura County (NBVC) commands so that military-connected children experience a seamless transition during the transfer between schools. Please contact the School Liaison Officer with any K-12 school-related questions.

Below is contact information for the schools that generally serve the children living in NBVC Family Housing. Please contact the school to verify space availability, school boundaries, and transportation availability.

## Enrollment Options in Ventura County

- **Intra-District Transfer**
  - As space is available; a student can request a transfer to another school within the home school district. Transportation is the responsibility of the parent. Information is available at student's school district. Some districts will begin the school choice process early in the calendar year for the following school year.
  - If a school is placed in Program Improvement (PI) due to the inability to meet Adequate Yearly Progress, a student can request a transfer to another in the school district not in PI, as space permits. Transportation is the responsibility of the school district. Districts do have deadlines for the request. The student's school district can provide additional information.
- **Inter-District Transfer**
  - As space is available; a student may request to attend a school outside of his/her home school district. Transportation is the responsibility of the parent. Some school districts begin the school choice process early in the calendar year for the following school year.
  - How to request an inter-district transfer:
    - Obtain an Inter-District Transfer Form *from the school district where the student resides*.
    - Complete the form; submit to student's home school district requesting a release of the student.
    - Typically, the form will be forwarded to the district of choice. However, verify with the district that this will be the case. If not, submit form to school district of choice.
    - As space is available, the district of choice will approve the request.
- **Charter Schools** - A public school that operates independently of the school district structure. For a listing of the charter schools available in Ventura County, visit the Ventura County Office of Education website at [www.vcoe.org](http://www.vcoe.org) . Each charter school has its own registration process and registration period. Transportation is the responsibility of the parent.
- **Private Schools** - Cost and transportation is the responsibility of the parent, however private schools may offer benefits that some public schools are not able to provide such as religious education, alternative schedules, specialized instruction, or before/after-school care.
  - [www.archdiocese.la](http://www.archdiocese.la) - Parents looking for Catholic schools in Ventura County can search on the website of the Archdiocese of Los Angeles
  - [www.acsi.org/](http://www.acsi.org/) - Association of Christian Schools International (ACSI) is an organization of Christian preschools, elementary, and secondary schools. Member schools can be searched on the ACSI website.
  - [www.wascweb.org](http://www.wascweb.org) – The Western Association of Schools and Colleges (WASC) accredits public and private schools in the western region. Elementary and Secondary schools accredited by WASC in Ventura County can be searched for on the WASC website.
- **Home School** – An option for parents who desire to teach their children. All costs are the responsibility of the parent. Some available resources for parents interested in homeschooling:
  - [www.californiahomeschool.net](http://www.californiahomeschool.net) or [www.hsc.org](http://www.hsc.org) – Provides information about current state and federal legislation affecting homeschooling families, and how to get started home schooling.
