

DEPARTMENT OF THE NAVY

USS JACKSON (LCS 6)
UNIT 100231 BOX 1
FPO AP 96692

Shipmate,

Welcome aboard and congratulations on your orders to the Jackson Team! You are joining a team of highly motivated and skilled professionals representing the finest crew in the Littoral Combat Ship community. Your tour aboard Jackson will be both challenging and rewarding.

The Crew you are joining is a legacy in the LCS community — one of the original four Independence Variant LCS Crews, we commissioned USS Coronado (LCS 4) and took her on her first deployment in 2016-2017. In 2019, we embarked USS Omaha (LCS 12) during her final contract trials, post shakedown availability, and delivery to the Fleet as training ship. Soon after, in 2020 we embarked USS Jackson (LCS 6), bringing her back to life after an extended DSRA and completing her maiden deployment to 7th Fleet from 2021-2022. We are now the first single crewed, deployable INDEPENDENCE-variant LCS.

We are professional warfighters responsible for Jackson's operational readiness to meet the full spectrum of LCS missions. My goal as Commanding Officer is to build and sustain a team of operationally focused Sailors and improve our warfighting capability — all while executing a demanding schedule.

I highly encourage you and your family to download the MyNavyFamily App — it contains a wealth of information and resources. Your sponsor has sent the remainder of the welcome aboard package, and they will support you through your PCS move, arrival at LCSRON One T2Q, and final transition to the Crew.

You also have the full support of my Command Leadership Team and may contact them at any time:
