

THE SAMPSON NATION CREED

Citizenship in SAMPSON NATION is the willingness to work for our collective advancement.

Citizenship is built on the foundation of trust, integrity, respect, and connectedness

We perform to be the best maritime warfighters on the high seas;
knowing all operating modes and all maintenance requirements of our gear.

We enforce strict procedural compliance – every step, every time.

We work together. No department or division is successful as a one-Shipmate show.

We do not suffer in silence. If we need help, we ask for it explicitly and at any time.

We work on our weaknesses until they become our strengths.

We work to improve our moral and spiritual strengths as well as our physical ones.

Don't ask to be deprived of tension and discipline, these are tools that shape success.

A great effort is usually the result of a great attitude; attitude is free and infectious.

How we conduct ourselves off ship is just as important as how we conduct ourselves on ship.

Never underestimate the adversary - when we are not working to improve, our adversary is.
